

Prof. Zijian Guo received his PhD degree from the University of Padova and worked as a postdoctoral research fellow at Birkbeck College, the University of London. He worked also as a research associate at the University of Edinburgh. He joined the School of Chemistry and Chemical Engineering at Nanjing University as a professor of chemistry in 1999, where he served as the director of the State Key Laboratory of Coordination Chemistry from 2000 to 2009 and the dean of the School of Chemistry and Chemical Engineering from 2006 to 2014. He was elected to the fellow of the Chinese Academy of Sciences in 2017. He served as editorial/advisory board members or associated editors of several national and international chemistry journals.

The major research interest of his lab focuses on the chemical biology of metals and metallodrugs. He was awarded the First Prize in Natural Sciences from Ministry of Education of China in 2015 and Luigi Sacconi Medal from the Italian Chemical Society in 2016.
